DETAILED ACTION

1. Claims 1-19 are pending.

Drawings

2. This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

Allowable Subject Matter

3. Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art, Smith's "Stack smashing vulnerabilities in the Unix operating system" and Cowan's "StackGuard" fail to teach the guard variable being stored in the stack between the previous frame pointer and the data stored at the local variable storage area (Applicant's response page 12 and 14). Instead, the cited references teach the guard variable being placed next to the return address. As such, the cited prior art fails to specifically teach or suggest all of the claimed limitations and thus fails to anticipate or render obvious the above-cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
